As the most diverse campus, BC Dining prioritizes cultivating a sense of inclusion as a crucial part of our community. This includes our focus on equitable employment, celebrating food heritage and culture, and creating a family within a family that supports the well-being of all employees.

As a part of our sustainable FRESH program, we are committed to increasing our partnerships with fair, equitable, sustainable, healthy, women-owned, minority-owned, and locally-owned businesses.

Boston College by far has been my second home. I was warmly welcomed. My uncle brought me to Boston College and it was a very beautiful family atmosphere. It continues to be a great place to work.
