Foreword

The *Boston College Fact Book* is a summary of significant statistics gathered from various sources throughout the University. Once again, we wish to extend sincere thanks and appreciation for the excellent cooperation and assistance received from these many sources.

The purpose of the *Fact Book* is to produce a single-source publication and reference document that touches upon and integrates all aspects of the institution's people and its operations. We do wish to point out to all users that the information presented herein was compiled at a specific time — July through December 1997 — to reflect the Academic Year 1996-97, as well as the most current enrollment statistics for Fall 1997.

The majority of the information is extracted from management reports produced on a regular basis by the various source

Notice of Nondiscrimination

Boston College does not discriminate on the basis of race, religion, color, national origin, age, marital or parental status, veteran status, sex, or disabilities in admission to, access to, treatment in, or employment in its programs and activities. The University is in compliance with the laws of the Commonwealth of Massachusetts and provides equal employment and housing opportunities without regard to sexual orientation.

Boston College is an academic community whose doors are open to all students without regard to race, religion, age, sex, marital or parental status, national origin, veteran status, or handicap. Boston College has designated the Director of Affirmative Action to coordinate its efforts to comply with and carry out its responsibilities to prevent discrimination in accordance with state and federal laws. Any applicant for admission or employment, as well as all students, faculty members, and employees, are welcome to raise any questions regarding violation of this policy with Barbara Marshall, Director of Affirmative Action, More Hall 315, 552-2947. In addition, any person who believes that an act of discrimination based on Title IX discrimination has occurred at Boston College may raise this issue with the Assistant Secretary for Civil Rights of the United States Department of Education.

The Mission of Boston College

Strengthened by more than a century and a quarter of dedication to academic excellence, Boston College commits itself to the highest standards of teaching and research in undergraduate, graduate and professional programs and to the pursuit of a just society through its own accomplishments, the work of its faculty and staff, and the achievements of its graduates. It seeks both to advance its place among the nation's finest universities and to bring to the company of its distinguished peers and to contemporary society the richness of the Catholic intellectual ideal of a mutually illuminating relationship between religious faith and free intellectual inquiry.

Boston College draws inspiration for its academic and societal mission from its distinctive religious tradition. As a Catholic and Jesuit university, it is rooted in a world view that encounters God in all creation and through all human activity, especially in the search for truth in every discipline, in the desire to learn, and in the call to live justly together. In this spirit, the University regards the contribution of different religious traditions and value systems as essential to the fullness of its intellectual life and to the continuous development of its distinctive intellectual heritage.

Boston College pursues this distinctive mission by serving society in three ways:

- by fostering the rigorous intellectual development and the religious, ethical and personal formation of its undergraduate, graduate and professional students in order to prepare them for citizenship, service and leadership in a global society;
- by producing nationally and internationally significant research that advances insight and understanding, thereby both enriching culture and addressing important societal needs; and
- by committing itself to advance the dialogue between religious belief and other formative elements of culture through the intellectual inquiry, teaching and learning, and the community life that form the University.

Boston College fulfills this mission with a deep concern for all members of its community, with a recognition of the important contribution a diverse student body, faculty and staff can offer, with a firm commitment to academic freedom, and with a determination to exercise careful stewardship of its resources in pursuit of its academic goals.

Boston College was founded by the Society of Jesus in 1863, and is one of twenty-eight Jesuit colleges and universities in the United States. With three teachers and twenty-two students, the school opened its doors on September 5, 1864. At the outset and for more than seven decades of its first century, the college remained an exclusively liberal arts institution with emphasis on the Greek and Latin classics, English and modern languages and with more attention to philosophy than to the physical or social sciences. Religion of course had its place in the classroom as well as in the nonacademic life of the college.

Originally located on Harrison Avenue in the South End of Boston, where it shared quarters with the Boston College High School, the College outgrew its urban setting toward the end of its first fifty years. A new location was selected in Chestnut Hill, then almost rural, and four parcels of land were acquired in 1907. A design competition for the development of the campus was won by the firm of Maginnis and Walsh, and ground was broken on June 19, 1909, for the construction of Gasson Hall. It is located on the site of the Lawrence farmhouse, in the center of the original tract of land purchased by Father Gasson, and is built largely of stone taken from the surrounding property.

Later purchases doubled the size of the property, with the addition of the upper campus in 1941, and the lower campus with the purchase of the Lawrence Basin and add by

matching University subsidy, was founded to promote research on the religious and Jesuit traditions of Boston College.

* Figures include students who attended for just one semester, as well as those who attended a full year. The figure for Master's students may include nondegree special students in some programs.

** Reported statistics in Education are not consistent for all years. In years where no figure is reported for nondegree students, these students are included in Master's degree counts.

¹This statistic includes estimated regular university scholarships and grants (through the operating budget), faculty kin tuition remission, minority scholarships, athletic grants, Jesuit Reduction, Alumni Association Scholarships, and endowed monies for scholarships.

²State scholarship funds to students from Massachusetts, Vermont, Connecticut, Pennsylvania, Rhode Island, Maine, New Hampshire; Gilbert Grants; and Herter Scholarships.

³Pell Grant eligibility is determined directly by the federal government.

⁴These loan funds (formerly called "National Direct Student Loans") are obtained by federal government contributions, Boston College contributions, and collections of previous loans awarded.

⁵This is a duplicated total since some students receive more than one type of aid.

***Important Note: The above data do not include Boston College student assistance for graduate and professional students (approximately \$11.96 million in tuition remission, grants, or scholarships and \$9.07 million in stipends in 1996-97) administered by the various schools and departments. Also excluded are the Nursing Loan Program (\$162,550 in 1996-97), a variety of grants and scholarships from fraternal organizations and clubs (\$3,028,274 in 1996-97), and loans processed by the Financial Aid Office (\$65,952,358 in 1996-97) for undergraduate students, graduate students, or their parents.**

Special Library Services

Quest – Library Information System

The Quest Computer system of the Boston College Libraries provides access to over 1.6 million volumes including books, media materials, microforms, newspapers, and periodicals. Quest may be searched by author, title, call number, subject, or key word from workstations in the libraries or by dialing in to the system from other locations either on or off campus. A separate file (NEWT) offers access to books recently added to the library collections. This is also searchable by author, title, subject, and call number. Over 25 major periodical indexes in the humanities, social sciences, law, and the sciences may be searched through Quest.

Computer Searching

CD-ROM networks in the O'Neill Library and the Law Library give patrons immediate on-site access to many databases in history, religion, and other areas of the humanities; the social sciences; government documents; nursing and medicine; law; and public affairs. Dial-in access to the networks is available from other campus libraries and faculty offices. Additional CD-ROM databases are available on individual workstations in O'Neill Library and other campus libraries. New databases are added regularly and patrons should check with the Reference Department for a list of current titles or consult the Boston College Libraries web page (<http://www.bc.edu/libraries.html>). The FirstSearch service, which provides access to the OCLC bibliographic files containing over 30 million records, is available through Quest as the database Worldcat (WCAT).

In addition to the search capabilities noted above, the Libraries offer patrons and researchers access to several hundred on-line databases that may be used for the retrieval of bibliographic information, full text, or statistical information. Many of these are accessible from the Libraries' home page. To use these databases, a researcher may plan a search strategy with a reference librarian and have the librarian perform the search. If appropriate, the researcher may choose from a smaller number of on-line services, such as Dow Jones or NEXIS/LEXIS, and perform the search after some initial training by a Library staff member. The Law School Library has on-line access to LEXIS and WESTLAW as well as other databases. Access to LEXIS and WESTLAW is restricted by contract to members of the Law School community. Dow Jones may be accessed by members of the BC community and NEXIS/LEXIS at O'Neill Library may only be used by members of the BC community on the Chestnut Hill campus.

The Libraries facilitate access to many computerized databases in business, economics, and the social sciences on magnetic tape. Contact the Reference Department for more information, and to arrange for demonstrations, workshops, or presentations to classes or departments.

John J. Burns Library of Rare Books and Special Collections

The University's special collections, including the University's Archives, are housed in the magnificently appointed Honorable John J. Burns Library, located in the Bapst Library Building, north entrance. These distinguished and varied collections speak eloquently of the University's commitment to the preservation and dissemination of human knowledge. The Burns Library is home to more than one hundred thousand volumes, some twelve million manuscripts, and important collections of architectural records, maps, art works, photographs, films, prints, artifacts, and ephemera. These materials are housed in the climate-controlled, secure environment of Burns either because of their rarity or because of their importance as part of a special collection. While treated with special care, these resources are available for use at Burns to all qualified students, faculty, and researchers. Indeed, their use is strongly encouraged, and visitors to Burns are always welcome, either simply to browse or to make use of the collections.

Though its collections cover virtually the entire spectrum of human knowledge, the Burns Library has achieved international recognition in several specific areas of research, most notably: Irish studies; British Catholic authors; Jesuitana; fine print; Catholic liturgy and life in America, 1925-1975; Boston history; Caribbeana; Balkan studies; and Congressional archives. It has also won acclaim for significant holdings on nursing, detective fiction, Thomas Merton, Japanese prints, Colonial and early Republic Protestantism, and banking.

Some of the significant collections at Burns include:

The Aylesford Press Collection
Banking Archives: Hibernia Savings Bank, Union Warren, The Provident Institution for Savings, the Yankee Bank for Finance and Savings, and the Savings Banks Association of Massachusetts

Academic Development Center

The Academic Development Center (ADC) exists to support and enhance all aspects of academic excellence by helping undergraduates, graduate students, and faculty improve learning quality and teaching effectiveness. The ADC, which opened its doors in September 1991, is located on the second floor of O'Neill Library in the Eileen M. and John M. Connors, Jr. Learning Center.

The ADC is a comprehensive, inclusive resource serving all of the University's students and faculty. To address the needs of the great majority of Boston College students, the Center provides tutoring for more than 60 courses, including calculus, statistics, biology, chemistry, nursing, accounting, and classical and foreign languages. In addition, graduate students in English serve as writing tutors. (All ADC tutors are recommended and approved by their relevant academic departments; most are graduate students, juniors, or seniors.)

The Center offers programs designed to challenge the most academically talented, highest achieving students — as well as programs designed to support those who are least prepared and most academically challenged. One of the ADC's three professional staff members assists students with learning disabilities, helping to ensure their academic success at Boston College.

Tutoring, and all other academic support services, are free of charge to all Boston College students and instructors.

The Center also sponsors seminars, workshops, and discussions for faculty and graduate teaching fellows on strategies for successful teaching and learning. Through these and other activities, the Academic Development Center plays an increasingly important role in enhancing the quality of academic life at Boston College.

The McMullen Museum of Art

The Charles S. and Isabella V. McMullen Museum of Art aims to increase understanding of the visual arts, to encourage inquiry, and to enrich learning through the display of a notable permanent collection and special exhibitions of international importance. The Museum occupies two floors of Devlin Hall. Spacious galleries with movable walls provide flexible exhibition spaces that rival venues in larger museums.

Begun in the nineteenth century, the University's permanent collection contains masterpieces that span the history of art from Europe, Asia, and the Americas. Outstanding among them are Gothic and Baroque tapestries, Italian paintings of the
